AN INVITATION TO THE COMMUNITY

We are excited to share an inside look at several spaces that are now ready for students.

Students, parents, staff and community are welcome to attend a short program at each facility that includes special remarks by district members and principals.

Thank you for your support during the April 2014 referendum.
With your help, we are building a better future for our students and community.

Please visit www.kmsd.edu/construction for more information on construction progress and the Ribbon Cutting events.
